Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 2. Claims 1, 3-4, 6-9, 11-12, 14-16, 18 and 20-21 are rejected under 35 U.S.C. 102(b) as being anticipated by Diez et al., EP 0 640 384 A1 (hereinafter "Diez"). Diez teaches a foaming agent comprising a nonionic defoaming agent (glycol species) and polyethylene oxide derivative with one terminal ionic end and the other terminal branched hydrocarbon. See Diez, pages 4-4, claims 1-2. Diez further teaches that the glycol species is dipropylene glycol monomethyl ether. See Diez, claims 9-10.
- 3. Claims 5, 10, 13, 17 and 19 objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
